

Mackinnon & Partners

Renewables

We offer recruitment solutions for renewable energy projects worldwide, collaborating with prominent EPC's, Developers and O&M's focusing on commercial and utility scale projects. Our enthusiasm drives us to continually advocate for the advantages of the renewables sector while assisting clients and candidates within the industry. Staying abreast of industry trends and personnel changes is a key aspect of our approach.

Our Process

We stand ready for rapid, efficient, and impactful hiring. Our recruitment teams specializing in renewable energy possess a profound understanding of the challenges businesses encounter. Leveraging our extensive global database, they can curate a talent pool for your future needs.
